Chapter Eleven Evolution Naturalism And

CHAPTER ELEVEN EVOLUTION, NATURALISM, AND SOCIAL DARWINISM That society had evolved from simple to complex, or through a series of predetermined stages, was a fundamental postulate of a great variety of social theories. Saint-Simon and Comte had hypothesized a law of historical development that society passed through successive stages.

CHAPTER ELEVEN EVOLUTION, NATURALISM, AND SOCIAL DARWINISM

The evolutionary argument against naturalism (EAAN) is a philosophical argument asserting a problem with believing both evolution and philosophical naturalism simultaneously. The argument was first proposed by Alvin Plantinga in 1993 and "raises issues of interest to epistemologists, philosophers of mind, evolutionary biologists, and philosophers of religion".
