teaching of English if-clauses. The main rationale for the inclusion of cognitive linguistic insights as the fundamental paradigm for the current research is that cognitive linguistic insights give the most meaningful description of how language is taught, used and learned (Tyler, 2012). Cognitive linguistics consists of a great number of ...

Cognitive Linguistic Insights into Classrooms

Cognitive Linguistics (CL) is based on the assumption that meaning is embodied and attempts to explain facts about language in terms of other properties and mechanisms of the human mind and body. Meaning is therefore often motivated through metaphor, metonymy, and image schemas, not only at the lexical level, but also in syntax and morphology...

Cognitive Linguistics and its Applications to Second ...

This study proposes a holistic approach that is anchored in the theoretic framework of Cognitive Linguistics to teaching Chinese characters for reading/writing by explicitly heightening learners’ awareness of the cultural knowledge encoded in the radicals and characters.

Teaching Culture through Language: Exploring Metaphor and ...

Language consists of constructions acquired through use, pair form with meaning, and encode different experiences of reality. Exploring how this knowledge is challenging second language learning the book examines how cognitive linguistic theory can propose new classroom methods, revive older ones, or underpin aspects of current practice.
