Ian McHarg - Wikipedia

Biomimicry is a field of design that looks specifically to nature for design and engineering inspiration. One of the most compelling examples is that of the Shinkansen bullet train in Japan. The original bullet train design posed some problems. The most pressing issue was the large “boom” sound the train produced when entering and leaving ...

10 Incredible Designs that Use Nature as an Inspiration

Design in Nature presents some interesting new thoughts on flow systems and the nature of the biosphere. However, I don't think it really achieves its purpose of introducing these thoughts to a lay audience. Note: I was an English major.

unintelligent causes like natural laws and chance or by intelligence. The split between description and explanation is a consequence of the natural science perspective.

The Idea of Design in Nature: Science or Phenomenology ...

Design in the Physical Universe -by Benjamin L. Clausen. This article describes evidence for what appears to be physical design on Earth, in the universe, and in the basic laws of nature. Some have used the examples of design as arguments for the God of religion as the intelligent designer; others have explained the design naturalistically.

Geoscience Research Institute | Is There Design in Nature?

By mimicking nature's design of layering the chitin and fibrous proteins, shrilk was created. The structural properties in nature are not chemistry only, but are also the result of the architectural design employed in their assembly.

The argument from intelligent design appears to have begun with Socrates, although the concept of a cosmic intelligence is older and David Sedley has argued that Socrates was developing an older idea, citing Anaxagoras of Clazomenae, born about 500 BC, as a possible earlier proponent. The proposal that the order of nature showed evidence of having its own human-like "intelligence" goes back to ...
