South African National Standard 164: Plugs and socket outlets for household and similar purposes for use in South Africa is the South African Bureau of Standards' standard for domestic AC power plugs and sockets.As a former British colony, South Africa's electricity standards are of British derivation, and it uses 220/230 V at 50 Hz AC.. However, while the UK changed over to the rectangular ...

SANS 164 - Wikipedia
We would hate to withdraw standards on the basis that the 'processes are generally flawed', because that leaves the industry with a gap within which they operate," Motloba noted. The intention is to get the processes for all standards committees to be improved, to identify on a systematic basis where the SABS is likely to have problems, and to make evaluations on a holistic approach.

New standards executive to drive SABS progress
Adopted standards can be reviewed through reaffirmation, amendment (Only applies to ISO standards), revision by adopting latest version of international standards and/or withdrawal. The SABS/TC 147 Water committee, therefore appeals stakeholders in the water sector to comment with necessary action of review outcome on the attached documents based on the expertise they have.

To assist in updating the Catalogue, information on new, amended, withdrawn or reaffirmed standards and on related publications is also published as the SABS Standards Bulletin which is issued monthly on the Standards website at

STANDARDS CATALOGUE 2013 - SABS
The SABS 1200 standards relating to concrete were withdrawn when SANS 2001-CC1 and SANS 2001-CC2 were published in 2007. This caused some confusion as the system of measurement was still embedded in SABS 1200 and until such time that an alternative system was in place, industry would have no access to these SABS standards.
